Vytio for Hospitality

The Bespoke Guest Entertainment & Experience IPTV Platform

Your search for the perfect guest entertainment & experience technology platform to fit your hotel is over. Unmatched in its functionality, scalability, and reliability, Vytio for Hospitality is the perfect fit for any hotel.

The core of the **Vytio for Hospitality** platform is a customizable, feature-rich IPTV Middleware solution. Hoteliers customize the look & feel, and the information on their television screens exactly to brand-standards, and freely make adjustments at any time. **Vytio for Hospitality** also delivers digital TV programming with recording functionality, and First-Run Hollywood VOD content. From this core platform, inside the guest room, **Vytio for Hospitality** expands outwards via a portfolio of hospitality-specific features and integrations.

The **Vytio for Hospitality** features were created with the modern hotel guest in mind. An interactive, connected, multi-device experience is rapidly becoming the expectation. Some of the unique features **Vytio for Hospitality** offers are an Integrated Digital Signage platform, VytioCast (Chromecast Management), Alexa/Voice support, TV Promotions, Emergency Channel Tuning, and a fully customizable mobile application which allows guests to communicate directly with hotel staff, and can act as a remote control, and as well as a room key.

Hotels and resorts are a conglomeration of various processes, systems and vendors. **Vytio for Hospitality** streamlines the experience for both hotel staff and guests by integrating with many different systems and vendors. **Vytio for Hospitality** integrates with various Property Management Systems (PMS), Point-of-Sale (POS), Spa Management, Emergency Alert Systems (EAS) and Room Control/HVAC.

Vytio for Hospitality is endlessly flexible and scalable, offering varying levels of service/features, price points, full integration with LG, SONY, Samsung and Philips commercial Smart TV's, as well as cloud, on-premises, and hybrid head-end configurations. Vytio will work with you to customize a solution that fits your hotel and operation - not the other way around.
