vytio enterprise

Vytio for Enterprise

The Uniquely Flexible and Feature-Rich IPTV Platform that Evolves with your Business

A state-of-the-art IPTV system that enhances communications and training within an organization. With unique functionality, vast scalability, and reliability, Vytio for Enterprise is the perfect fit for your organization.

Vytio for Enterprise is a feature-rich IPTV Middleware solution tailor-made for enterprises and government agencies. Capitalizing on its industry leading IPTV Platform, **Vytio for Enterprise** streamlines the internal distribution of IPTV channels while simultaneously using branded, informational portals to create lines of communication with employees and thus creating a stronger sense of community. **Vytio for Enterprise** also empowers organizations to incorporate TV programs, live town hall meetings, video broadcasts, and video-on-demand into their communications and training.
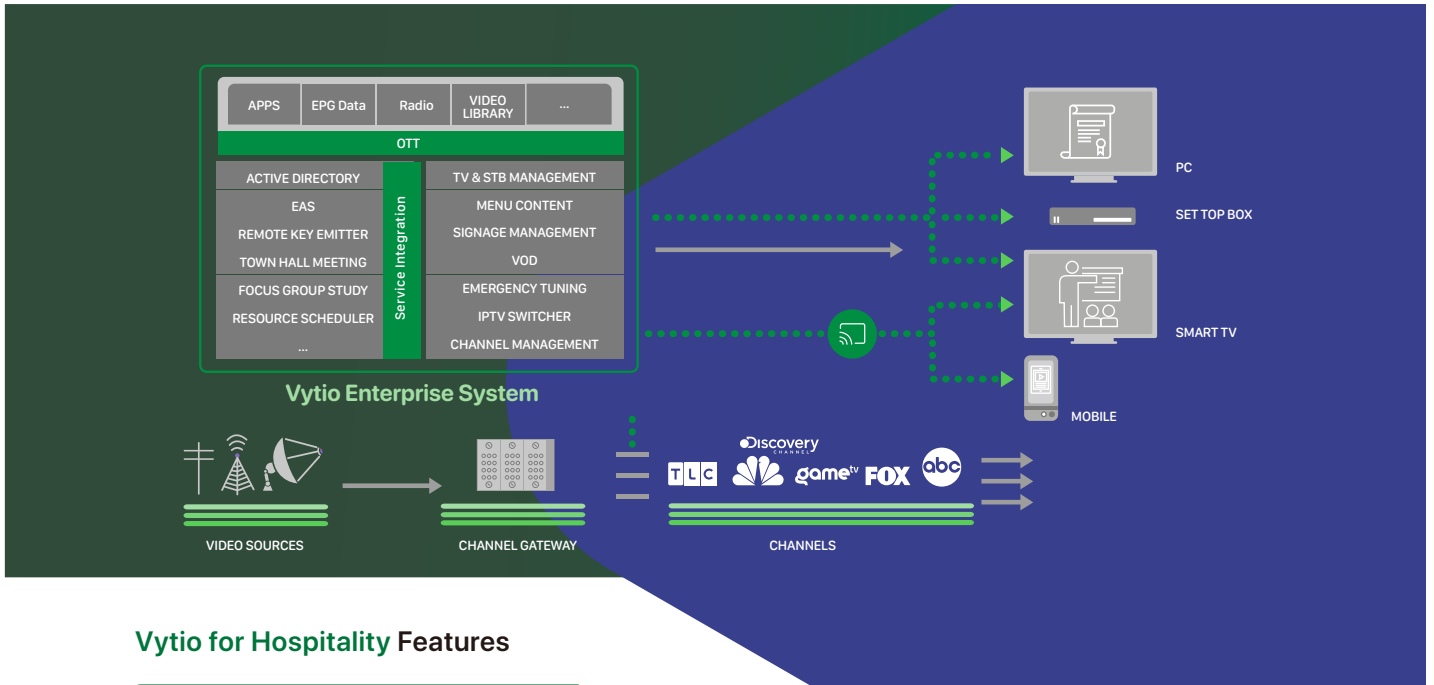

Flexibility and scalability are what truly makes **Vytio for Enterprise** a unique solution. We offer a variety of industry-specific features, such as VytioSign (Integrated Digital Signage Platform), local channel insertion, control functionality, VytioCast (Chromecast Management), and Emergency Channel Tuning. Additionally **Vytio for Enterprise** allows users to record IPTV programs and store those in an internal company archive.

Vytio for Enterprise's IPTV platform ensures seamless integration with corporate authentication and access control systems, unparalleled scalability, and an open architecture designed for future expansion. With integrated Digital Signage and Mobile / Tablet device support to further assist organizations to effectively communicate with their employees. **Vytio for Enterprise** has field-proven reliability and manage-ability that can be trusted with cost-effective 24x7 operations.

Vytio for Enterprise is endlessly flexible and scalable, offering varying levels of services, features, and price points. We also fully support LG, Amino and Android set top boxes, LG, SONY, Samsung, and Philips commercial Smart TVs as well as on-premises, cloud, and hybrid headend configurations. Vytio will work with you to customize a solution that fits your operation – not the other way around.
