

## Name

Aluminum universal console for ADSS cables.

## Application:

Our universal bracket is ideal for supporting a wide range of cable installations on wooden or concrete poles.

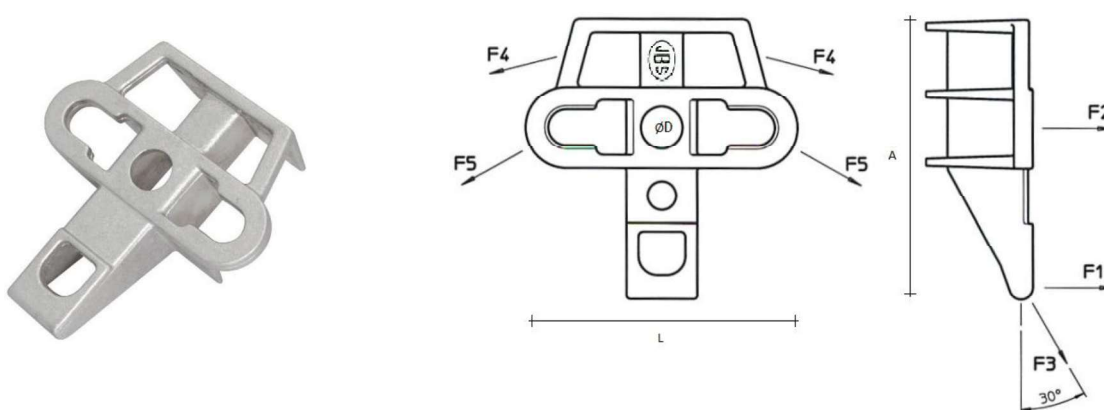

Designed for versatility and durability, it can be securely mounted to the pole using either fixing bolts or stainless steel tape.

## Material:

High strength aluminum alloy.

## Technical Characteristics:

High strength aluminum alloy.

Dimensions			Minimum breaking force (kN)				
A	ØD	L	F1	F2	F3	F4	F5
122±1	18±0.5	114±1	15	9	27	6	15

Weight	Box
0.20 kg	30 pcs

## Installation:

The console can be installed on a pole by M16 or M14 screw, but it can also be tied to the pole by stainless steel tape.
