BEAD Deployment

BEAD funding represents a once-in-a-generation opportunity — but it comes with strict compliance rules, aggressive timelines, and zero margin for error.

A single misstep in equipment sourcing, documentation, or delivery can delay builds, trigger audits, or jeopardize funding altogether.

When the stakes are this high, you don't gamble.

You partner with Advanced Media Technologies (AMT).

Why Partner With AMT

WHY BEAD DEPLOYMENT IS A HIGH-RISK GAME

Compliance Complexity

Buy America (BABA) requirements, reporting, and audit readiness are evolving — and unforgiving.

Supply Chain Uncertainty

Long lead times, shortages, and vendor delays can derail milestone schedules.

Labor & Execution Challenges

Limited skilled labor and inefficient workflows slow builds and increase costs.

The Risk: Missed deadlines. Cost overruns. Funding clawbacks.

THE AMT DIFFERENCE — CERTAINTY, NOT LUCK

AMT eliminates risk from BEAD deployment by combining compliant equipment, guaranteed availability, and end-to-end execution support.

- ✓ **BEAD & Buy America-Ready Solutions**
- ✓ **Guaranteed Inventory & Logistics Support**
- ✓ **Proven Broadband Deployment Expertise**
- ✓ **One Partner from Design to Delivery**

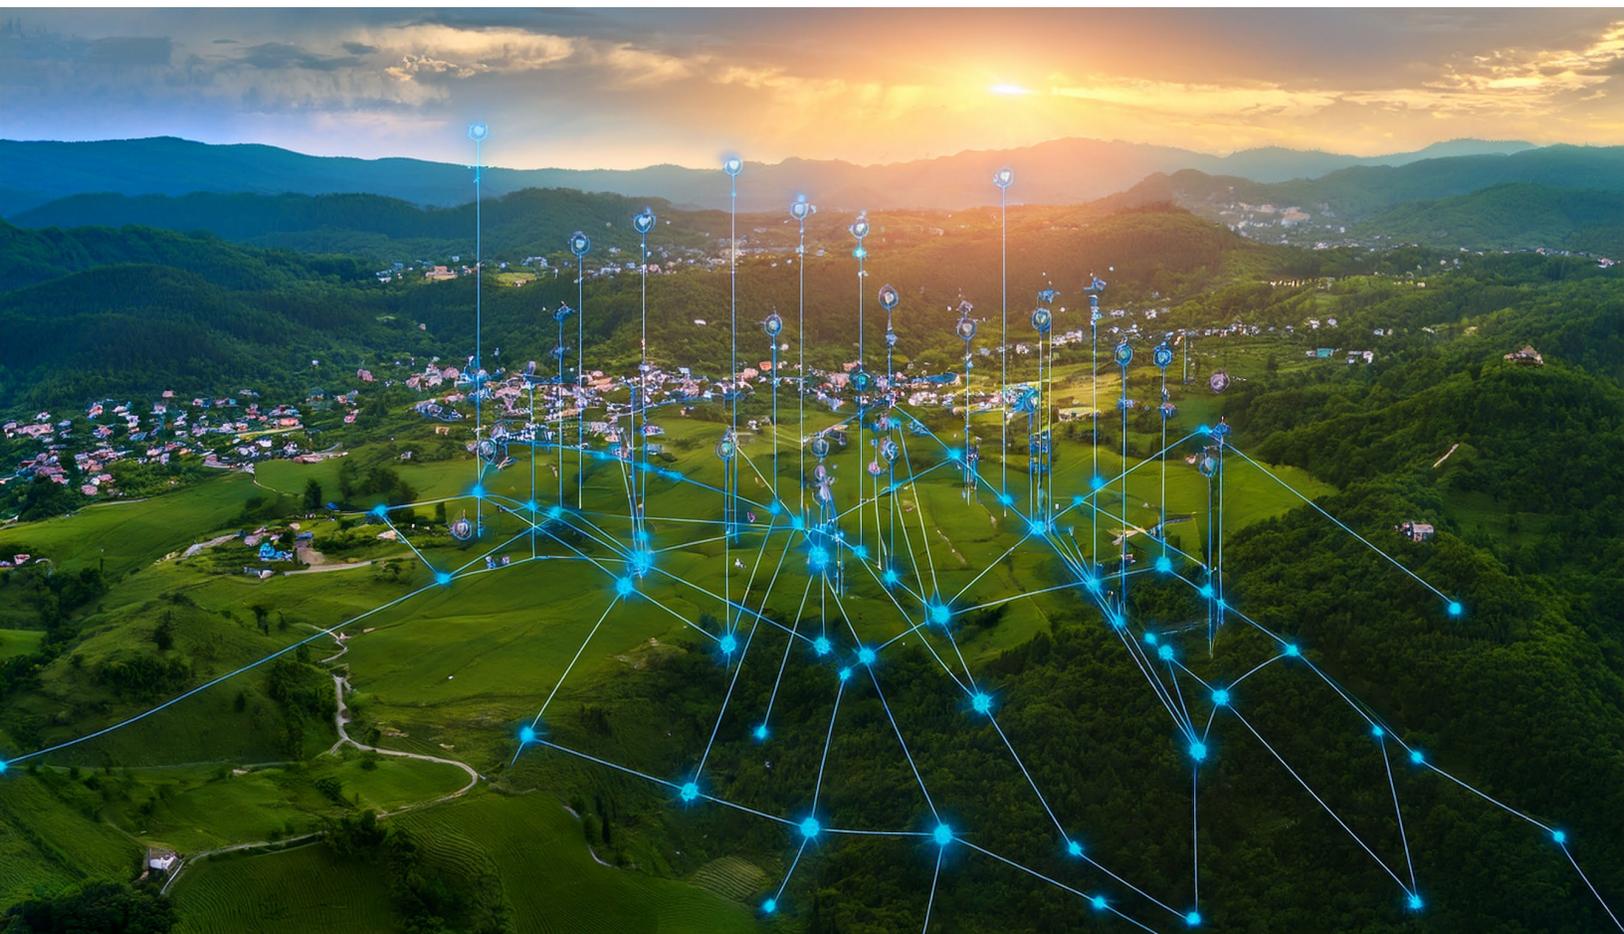

With AMT, compliance isn't a gamble — it's built in.

Why Partner With AMT

WHAT MAKES AMT YOUR SAFEST BET

- Over four decades of broadband, fiber, and network deployment experience
- Trusted partner to ISPs, co-ops, utilities, and municipalities
- Deep vendor relationships ensure priority access to critical equipment
- Hands-on guidance through every phase of BEAD deployment

BEAD-Ready Solutions

BEAD-READY SOLUTIONS DESIGNED TO KEEP YOU MOVING

BEAD-Ready Fiber & Network Equipment

Compliant fiber, cabinets, enclosures, OLTs, ONUs, and CPE — sourced and documented to meet BEAD requirements.

Pre-Configured Deployment Kits

Project-specific kits that reduce ordering errors, speed installation, and simplify compliance tracking.

Power, Backup & Resiliency Solutions

Reliable power and redundancy designed for rural and large-scale BEAD networks.

Professional & Deployment Services

Digital walkout design, permitting support, BOM creation, staging, logistics, and fulfillment.

Training & Workforce Enablement

Equip crews with the knowledge and tools needed to meet aggressive build schedules safely and efficiently.

Custom BEAD Bundles

Tailored solutions aligned to your state requirements, funding rules, and build phases.

Your BEAD Deployment Partner

WHY OPERATORS TRUST AMT

- Industry-recognized broadband VAR and deployment partner
- Active participation in broadband and rural connectivity ecosystems
- A proven track record of helping operators meet deadlines — without surprises

We don't just sell equipment.

We help you protect your funding and your reputation.

STOP GAMBLING. START BUILDING WITH CONFIDENCE.
